Lockwood: *no worries*®

Keyless Digital Deadlatch

- Unlock with pin or key card
- Program multiple user codes

The 001Touch™ Digital Deadlatch combines a stylish digital touch screen keypad with the security of the iconic Lockwood 001® Deadlatch. The simple convenience of using a pin code means you never have to carry keys again!

Illuminated touchscreen keypad

The elegant touch screen keypad is easy to use and comprehend with the same versatility as today's devices.

Pin code or key card

Choose the convenience of a pin code or key card. One master pin code will manage up to twenty user pin codes. Up to twenty key cards can also be programmed.

Cryptic code function

Prevent others from identifying your pin code during access. The cryptic code function confuses the onlooker but at the same time allows you to gain entry.

User code that expires

A temporary pin access code can be programmed to last from three hours to two weeks. This is ideal for allowing short-term access to your property and reduces the potential risks in giving your keys to a tradesman, cleaner or neighbour.

Visual guide for programming

For added convenience, an illuminated guide will assist in the programming of your 001Touch™ Digital Deadlatch.

Low power consumption

Four standard AA batteries will unlock a door up to 10,000 times. A warning light will appear when the battery level reaches less than 30%.

Battery check function

The battery level can be checked without removing the batteries.

Emergency battery connection

In the event the battery goes flat, two battery contact points will fit a standard 9V battery, providing a temporary charge. This will allow entry with the pin or key card.

Smart memory

The settings, codes and key cards will remain programmed in the lock should the batteries go flat.

Product usage

The 001Touch™ Digital Deadlatch is best suited for residential and light commercial properties.

Keyless Digital Deadlatch

Backset	60mm
Latch	Stainless Steel 18mm projection
Door Thickness	32mm to 50mm

Keyless Digital Deadbolt

- Touch screen pin code access (key override)
- Program multiple user codes

No Keys? No Worries. The Lockwood Digital Deadbolt lets you unlock your front door by entering a simple code.

Ideal for use on new doors or as a replacement on an existing door lock on your home, the Keyless Digital Deadbolt is also suitable for internal and light commercial doors such as storerooms and shop fronts.

Illuminated touch screen keypad

The elegant touch screen keypad is easy to use and comprehend with the same versatility as today's devices.

Visual guide for programming

For added convenience, an illuminated guide will assist in the programming of your Digital Deadbolt.

Low power consumption

Four AA alkaline batteries will unlock a door for approximately 12 months if used 10 times per day. A battery icon will begin flashing when the battery level reaches less than 30%.

Emergency key override

In the event your battery goes flat there is a key override function that will prevent you from being locked out.

User code that expires

A temporary pin access code can be programmed to last from three hours to two weeks. This is ideal for allowing short-term access to your property and reduces the potential risks in giving your keys to a tradesman, cleaner or neighbour.

Code lockout settings

Privacy mode allows you to deactivate the external keypad from the inside providing a secure environment from others who may have pin code access. By using your master pin, you can also restrict all user pin access.

Product usage

The Lockwood Digital Deadbolt can be used on residential and light commercial properties.

Keyless Digital Deadbolt

Backset	Adjustable 60mm or 70mm
Bolt	Zinc alloy 25mm projection
Internal thin doors	Plastic gasket (32mm-36mm)
External thick doors	Rubber weather resistant gasket (37mm - 50mm)
Finish	Powder Coated Silver

Digital Touch Screen
Illuminated keypad.

Emergency Key Override
2 Keys included.

Batteries
Included.

Tapered Bolt
For ease of alignment to strike.

Kinetic Defence®
Bump and pick resistant.

Wireless Digital Deadbolt

- Wireless network connectivity
- Program multiple user codes

The Lockwood Electronic Wireless Digital Deadbolt offers the flexibility of a keyless entry locking solution whilst providing wireless Z-Wave or ZigBee network connectivity to integrate into building automation solutions. It features a master pin code that controls up to 250 user codes, voice guided programming, weather resistant keypad, low battery warning, key override for emergencies and many more features for your safety and convenience.

Ideal for use on new doors or as a replacement on an existing door lock on your home, the Wireless Digital Deadbolt is also suitable for internal and light commercial doors such as storerooms and shop fronts.

Safety - Never carry keys

Keyless PIN code access ensures security whilst away and allows people entrusted with a PIN code to gain entry with the simple push of a button.

Security - Resting easy all night long

Privacy mode provides ease of mind by disabling the keypad to ensure that no one can enter the property from outside while you are sleeping, with the exception of close family entrusted with a key.

Remote Management - Remote access control

The Wireless Digital Deadbolt lock status can be viewed and controlled via a PC, Notebook, Tablet or Smartphone. Simply lock or unlock your door from anywhere in the world.

Receive a text message or email alert when the door is accessed to know that your loved ones have arrived home safely (when integrated with Remote Management Software).

Convenience - Trigger other devices

Integration with Remote Management Software will enable you to turn on other devices when you open the door using your unique PIN code including:

- Unlock all doors
- Turn on the interior house lights
- Turn on the TV
- Adjusts the thermostat to 21°C
- Close the curtains

Wireless Digital Deadbolt

Backset	Adjustable 60mm or 70mm
Bolt	Zinc alloy 25mm projection
Internal thin doors	Plastic gasket (32mm-36mm)
External thick doors	Rubber weather resistant gasket (37mm - 50mm)
Finish	Powder Coated Silver

Digital Touch Screen

Code Handle Keyless Lockset

- Lever handle with integrated code lock
- Program multiple user codes

Lockwood's innovative door handle with integrated electronic security, offers simple and effective keyless locking, without compromising aesthetics.

Designed to enable conveniently controlled access to a door with easy installation. The Code Handle Keyless Lockset is ideal for offices, store rooms or a study at home.

The Code Handle provides flexible locking options for doors that need to be always locked or alternatively can be left open to provide free access during the day and locked at night. The Code Handle is an electronic product that is not weather rated, so use should be limited to appropriate environments. The Code Handle is not suitable for front doors and external doors.

Retrofitable

Fits majority of doors with a 54mm hole. Designed to provide convenient keyless access to a door by replacing the existing door handle.

Key features

- Lever handle with integrated code lock
- Program up to 9 user codes, 4-6 digits in length
- Supplied with Lockwood 530 60mm latch
- Easy to install
- Ideal for retrofit installations
- Programmable administration code for setting lock operation and user programming
- Manual or automatic locking
- Passage mode
- Code lockout for 3 minutes after 5 incorrect attempts
- Durable stainless steel handles
- Left and right handed versions

Mechanical Digital Locksets

- No electrical wiring required
- Resettable combination

The Lockwood Digital DX Locksets provide a mechanical method of keyless entry and are designed to control access into commercial areas, especially when frequent combination changes are needed to maintain security.

As the digital lockset utilizes mechanical operation, electrical wiring is not required.

For extra security when under forced attack, the inbuilt clutching mechanism allows the outside knob to rotate without operating or damaging the lock.

The factory set 5 digit code is easily changed to any 4, 5 or 6 digit code using the code changing kit provided with each lock.

Outside function

Press the C button, enter the correct code, then turn the knob to unlock the door. Upon releasing the turn knob the code is automatically cancelled.

Inside function

Opened by knob/lever at all times.

002DX Keyless Deadlatch

Door Thickness	32mm to 45mm.
Latch	18mm projection, stainless steel
Backset	60mm
Internal Case Assembly	High purity zinc alloy, 92mm wide, 72mm high, 54mm projection
Finish	Satin Chrome Brushed*

* Finish denotes the finish on the digital code pad, the 002 lock body is supplied in Satin Chrome Pearl.

Inside   Outside

002 Digital DX Locks suit right or left hand doors opening inwards.

Hold-back function

002 Digital DX Locks have a bolt hold-back function activated by rotating inside knob/lever clockwise, past 90 degrees.

530DX Keyless Entrance Set

Door Thickness	32mm to 45mm.
Latch	13mm projection deadlatch, Brass
Backset	60mm standard. 70mm and 127mm latches available separately on application
Finish	Satin Chrome Brushed,
Options	Also available in double keypad version, which provides a keypad on each side of the door.

Latch

Inside   Outside

530 Digital DX Locks suit right or left hand doors opening inward and outward.

The Lockwood 530 Digital DX Entrance set has been successfully tested up to 2 hours on fire door assemblies (depending on type of doorset) in accordance with Australian Standard AS1905.1:2005, Fire Resistant Doorsets.

63mm & 55mm Velocity Series Door Lever Handles

- Quick installation
- Available in a range of styles and finishes

63mm Rose, Glide™ L4 Lever in Chrome Plate

Lockwood's Velocity Series Door Handles offer an exceptional level of quality that is synonymous with the Lockwood brand.

Available in two different rose sizes with a range of finishes and a selection of stylish lever options.
All fixings are concealed beneath the removable rose trim providing a crisp and clean presentation.

Achieve consistent styling throughout your home by matching your internal door handles with your selected Lockwood external lock.

Quick Installation

The frustration of fiddling with small parts or misplacing them during installation is a thing of the past. The Velocity range of lever sets are supplied pre-assembled so there are no loose screws or spindles.

Screws align through the rose removing the need to locate them blind through the door. A twist and a quick tighten of screws and the levers are installed.

120N Series Padlocks

- Double Locking
- Protective Silicone Jackets

The 120N Series Display Padlock range includes 14 different models, with single, twin and quad packs (keyed alike), as well as extended shackle lengths for selected models.

All padlocks in this range come complete with jackets made from a tough silicone material which is weather resistant and UV stable to resist the impact of harsh environments.

The jacket also provides protection for both the padlock and the object to which it is attached.

The 120N padlocks are suitable for a broad range of general purpose applications including garden sheds, garages, letterboxes or locking up your bicycle.

All products are designed and tested to the Australian Padlock Standard AS4145.4 2002 and are rated for both security and corrosion resistance.

Product Features

- Protective silicone jackets
- Individual jacket colours for each model
- Double locking shackle mechanism
- Self-latching shackle function
- Pin tumbler locking
- Extended shackles on some 30mm and 40mm models

Product Details

Shackle	Heavy duty chrome plated hardened steel Self Latching and Double Locking Models ranging from 18mm to 80mm
Jacket	Weather resistant Silicone
Multipacks (keyed alike)	Available on some 30mm and 40mm variants

LOCKWOOD
ASSA ABLOY

When it comes to safety it's primal, it's our survival, a basic human need. We want freedom to live, explore and rest without fear. To leave behind in safety our precious, cherished and most valuable things. And to come back to them exactly as we left them.

For as long as we have valuables, we will always need protection. Though the need for our products is driven by concerns, the Belief in our Brand is propelled by confidence. An unquestioned confidence in our ability to protect what is most important to you.

Our products provide peace of mind through strength, substance and style. Our reputation is forged in traditions, supreme workmanship, uncompromised values and above all our people. We are a trusted, tireless and vigilant guardian that protects families, households, trades and businesses.

Because if feeling safe is a basic human need, knowing you're safe is why Lockwood exists. For over 75 years, our guiding principle is and will always be: To take the worry out of protecting what is valuable to you.

Lockwood: *no worries*®
